OPTIMISATION OF HOSPITAL WASTE STREAM

Clinical Waste Management

Our cradle-to-grave waste management process involves collection, treatment, and disposal. This process is compliant with the Department of Waste Management and Pollution Control (DWMPCC) requirements through licensing of logistics and Treatment Facilities. We however strive for a future of zero-waste to the landfill.

Our clientele includes but is not limited to:

- Hospitals and Clinics
- Forensic Laboratories
- Veterinary Services
- Pharmaceutical Firms
- Sanitary / Feminine Hygiene Waste Service Providers
- Food Manufacturing / Food Service

Environmental Noise Monitoring For Compliance

Water-Smart Eco Carwash | The Green Machine

WHY USE GREEN MACHINE

The Green Machine is an **environmentally friendly, waterless / water-smart** car washing system which is both a cost-effective and time-saving alternative to the traditional car wash.

Taking **25 minutes** to wash and wax your vehicle, the Green Machine not only cleans your vehicle, it leaves a velvet smooth and protective wax covering that doesn't damage paintwork, keeping it cleaner and protected for longer.

THE GREEN MACHINE PROMISES:

- 100% environmentally friendly.
- 100% natural and soluble cleaning agents. Zero 'toxic runoff' or water pollution.
- All-in-one vehicle wash, wax, protection and polish faster than a traditional wash including rims and tyres.

This system is suitable for:

- Auto dealerships
- Motor vehicle Fleets
- Trade Shows and exhibitions
- Hospitality Parking Bays

Kutz & Tutz Group

Kutz & Tutz Hygiene is a 100% Botswana citizen-owned company incorporated in 2009 which was inspired by the desire to become a leader in hygiene & health care. Our purpose is to enhance lives and the quality of life through best-in-the-market well-being solutions.
